

Mixed Media Techniques with GOLDEN Acrylics

A Workshop presented by

Adria Arch

**Saturday May 19, 2018 at the Cape Cod Museum of Art in Dennis,
from 10-3**

Sponsored by Cape Cod and Islands Art Educators Association

Using a selection of GOLDEN acrylic products, we'll create three small mixed media creations. Learn what to put under paint, and how to create washes, stains, and collage. We also cover the use of stencils, paint markers, pastels, and pencils, as well as encaustic-like effects, and how to use Iridescent and Interference colors to add unique qualities to your work. This is a great place for beginners and experienced artists alike to learn new techniques and be inspired by innovative applications. All painting supplies provided.

Adria has offered to share inspiration for school classroom applications as well as personal development in this workshop.

Adria Arch is a painter and mixed media artist. Her work is represented in corporate and private collections including the DeCordova Museum, Fidelity Corporation, the Boston Public Library, and the Federal Reserve Bank of Boston. Adria specializes in helping students unlock their creative potential. She has taught painting, drawing, and printmaking at Montserrat College of Art and Massachusetts College of Art and Design, numerous art centers and museums, and privately. Adria's studio is in Newton, MA and she also teaches at her home studio in Arlington MA.
